

Industec Filtration Pty Ltd. aims to incorporate sustainability in every aspect of our industrial filter business, and we are committed to minimising the environmental impacts of our operations. We seek continuous improvement in performance through the application of industry best practice to meet regulatory and community expectations.

Industec has set the following environmental objectives:

- Controlling Industec environmental impacts and continuously improving our environmental performance,
- Application of the principles of sustainable development, pollution minimisation and life cycle management,
- Provide employees with training and clear accountabilities in relation to the achievement of environmental objectives and targets, and
- Compliance with all relevant environmental laws, regulations, and standards that relate to the Industec operations.

This policy has been implemented and communicated throughout Industec and is made available to workers and other interested parties.

The relevance and appropriateness of this policy is assessed during Internal Audits.
